

Introducing the

Philanthrovate

Grant Administration System

A cloud based solution helping grant managers and organisations efficiently and effectively control workflow through-out the entire grantmaking process.

Provides the tools to manage all aspects of grant making throughout the life-cycle; from applications and reviews to active projects, reports and acquittals.

Centralises data, operations workflow and processes.

Works on Mac and PC using software in the cloud.

Why invest in a Grant Administration Solution

Simplifies and addresses common needs including;

Reliance on paper based systems

Dependence on complex spreadsheets.

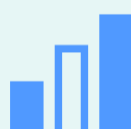

Scattered sources of information

Aligning systems with process and workflow

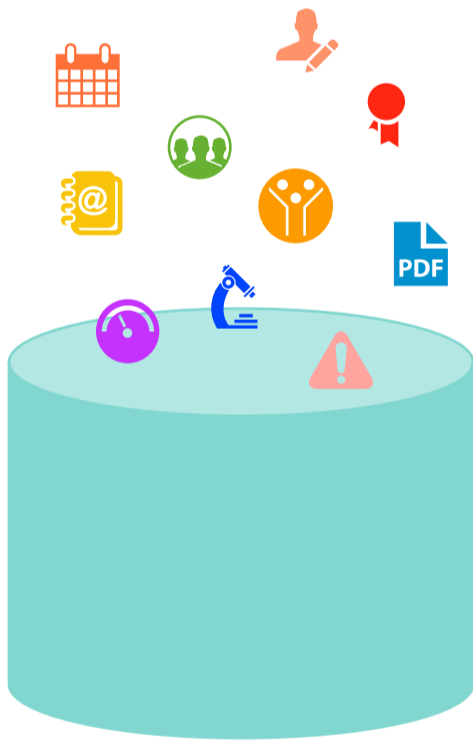

Online applications, reviews and workflow control

Simple reports and charts
